SET IT UP

Three screens, once

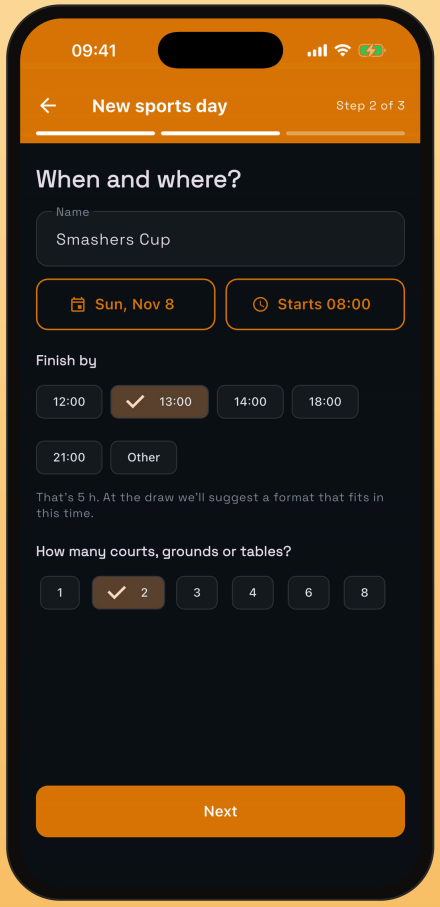

1 Pick your sports

Home → Tournaments → New tournament. Choose one sport, or several for a sports day — box cricket, badminton, football and more.

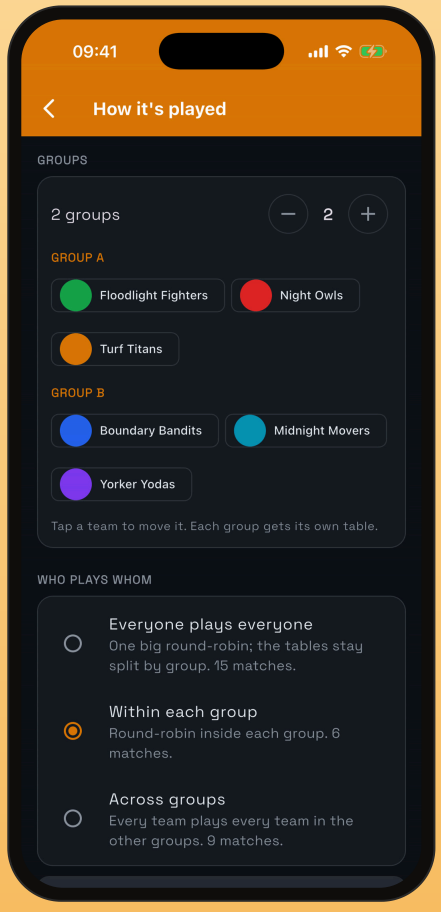

2 Set the day

Name it — e.g. *Smashers Cup* — then the date, start and finish times, and how many courts or grounds you have.

3 Groups & qualification

Open **How it's played**: split teams into **Group A** and **Group B**, choose how many **qualify from each group** and the knockouts — grovr creates the fixtures.

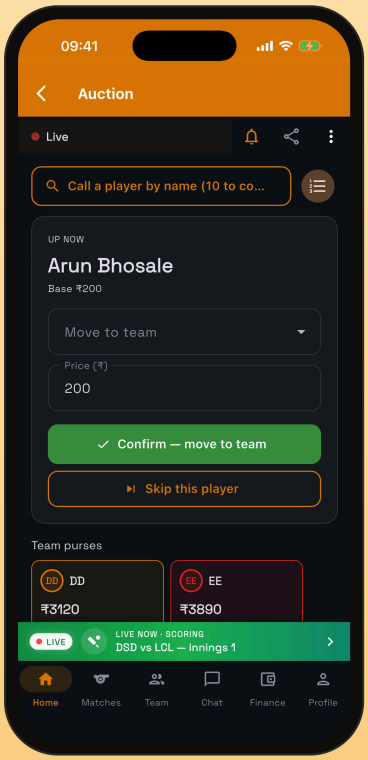

MATCH DAYS

Draft the teams, score every game, crown the winners

4

Run a live auction

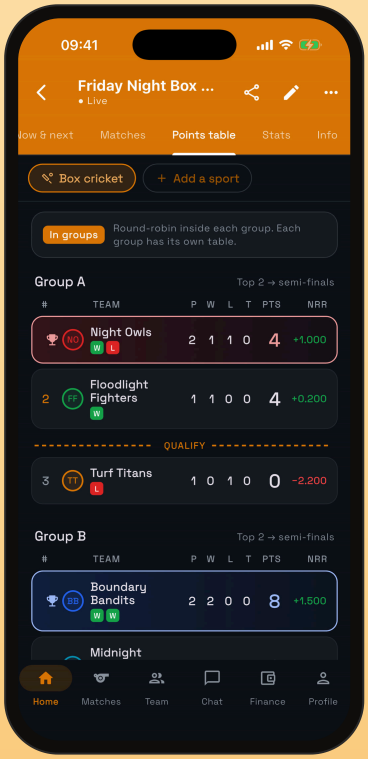

Info → Auction. Call a player, type the winning price and pick the team — purses update live for everyone.

5

Score live — group tables update

Score every game on a phone. Each group's table updates as games end — the **qualification line** shows who goes through.

6

Stats & champions

The **Stats** tab crowns the **Orange Cap**, **Purple Cap** and **MVP** — and the champions table shows who won it all.

EVERY SPORT, SCORED & STREAMED LIVE

Live scoring and YouTube streaming with the score on screen work across sports:

Cricket · Box cricket · Badminton · Tennis · Padel · Squash · Table tennis · Pickleball · Football · Netball · Kabaddi

STREAM IT LIVE

On YouTube, with the score on screen

7

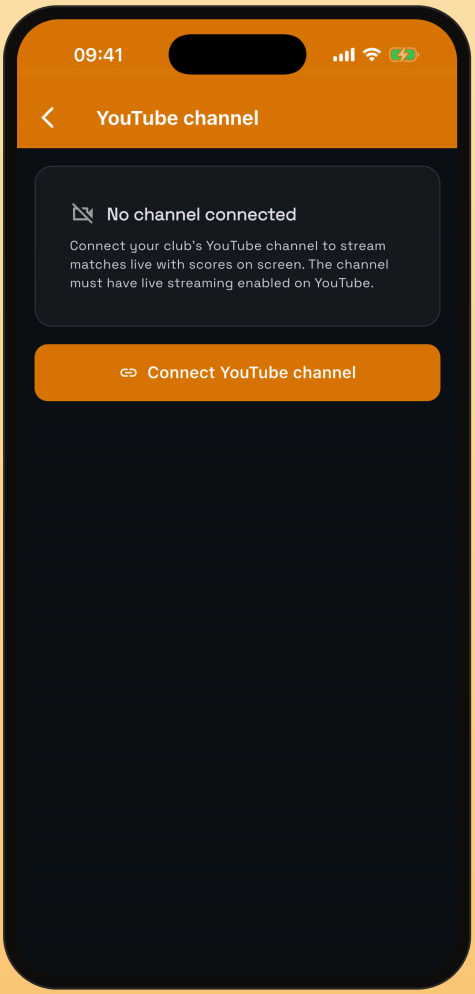

Connect YouTube — once

Club settings → YouTube channel → Connect. Sign in with the account that owns your channel.

8

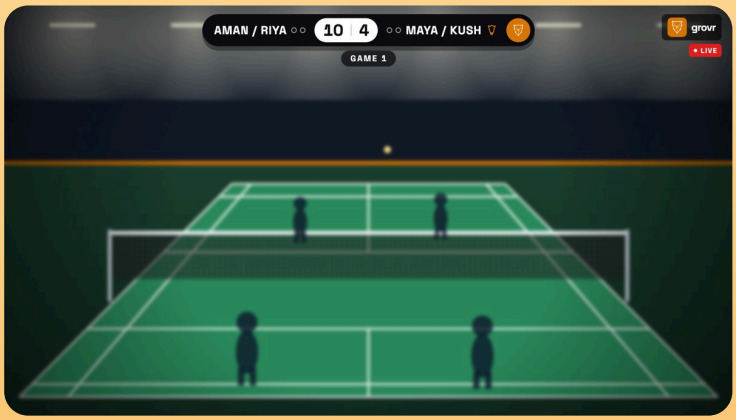

Go live

Phone on a tripod, open the match and tap **Go live**. The scorer scores on another phone — the score on stream updates by itself.

Cricket — Score, overs, batters and bowler on a strip along the bottom

Badminton — Games, points and who's serving in a bug at the top

Share the match link so families and friends can watch from anywhere. Step-by-step for everything: **grovr.team/guide**
